FIRE BAN

At present, there is a fire ban throughout Dalarna and Värmland. That means you can not cook outside your own plot. Own plot refers to a garden plot with short cut grass, and with good secure distance to forest.

In case of fire ban, it is NOT permitted to:

- use disposable grill
- Use cooking appliances on gas or another fuel outside
- make fire or grilling directly on the ground (even with rocking and fixed barbecue areas)
- cook and grill outdoors at campsites.

NOTE! Be extra careful about cigarette smoking and when you park your vehicle, the catalypt can ignite the underground.

The County Administrative Board has decided on a ban on the lighting of fires in Dalarna and Värmland county. Significant risk of fire prevails in the territory.
